

Quantum-Safe Readiness: Probe → Verify → Migrate

HAWK Withdrawn Candidate, Not a Breach

Finalized
NIST Standards
(ML-KEM, ML-DSA)
Unaffected

No Known
Quantum
Computer Date

The Core Model: Probe → Verify → Migrate

Probe Assumptions with AI

Verify Findings with Experts

Migrate to Finalized Standards

Execute the 30-Day Readiness Roadmap

Days 1-5

Appoint owner
& priority data

Days 1-10

Build crypto
inventory

Days 8-18

Rank exposure
by data life
& suppliers

Days 15-30

Run a
non-production
pilot

Establish Parallel AI Guardrails & Local Alignment

AI Tools

Production
Keys

Isolate AI from production keys

Evaluate vendor capability
against market signals
